

**Italian made cookers**  
**Engineered**  
**for Australia.**

Made in Italy

# Engineered for sharing.

“The people of Emilia Romagna eat more, care more and talk about food more than anyone else in Italy”.

Emilia cookers are manufactured by Glem Gas SpA in Modena, Italy, right in the heart of the Emilia Romagna region. Emilia 90cm and 80cm cookers have large capacity 116 litre ovens and, like the 60cm and 53cm cookers, are available either as full gas cookers or dual fuel with electric ovens.

The Emilia 70cm cooker has an Energy Selective oven. Developed in Australia, this oven allows the home chef to select the moist heat of gas for roasting meats and the dry heat of electricity for baking perfectly crisp pastries.

### OFF GRID READY

Emilia gas ovens are “Off Grid Ready”. The gas oven has an electricity consumption that is only one percent of what an equivalent electric oven would use. The only electricity consumed is for the cooling fan, which consumes just 25 watts of electricity. Emilia gas ovens can even operate without the electricity connected. All Emilia cookers use an electric grill. We find gas grills to be unsuitable for Australian cooking styles where foods such as lamb chops create too much splatter for a gas grill.

- FAN FORCED**  
Fast heat up and rapid cooking from a circular element around a fan that pushes the heat through for maximum efficiency.
- FAN ASSIST**  
Superb heat distribution perfect when cooking on more than one shelf. The heat is from a top and bottom element with fan assistance. NEW
- CLASSIC BAKE**  
Traditional oven heating from a top and bottom element without fan assistance. Great for slow cooking.
- FAN ASSISTED ELECTRIC GRILL**  
The grill element operates with fan assistance which is excellent for thicker cuts of meat.

- GRILL**  
Closed door grilling for improved efficiency and cooking smell retention.
- STATIC GAS**  
Gas baking without fan assistance for those times when you don't want air movement in the oven.
- FAN ASSISTED GAS OVEN**  
Gas baking with fan assistance. Eliminates cold spots when cooking on more than one shelf. Great even heat distribution.
- STATIC GRILL**  
Electric grill element. Closed door grilling for improved efficiency and cooking smell retention.

- GRILL WITH FAN ASSISTANCE**  
Electric grill element operates with fan assistance.
- OVEN LIGHT**
- 15 AMP**  
Fitted with a 15 amp plug and cable for plug in connection to a 15 amp circuit
- 10 AMP**  
Fitted with a 10 amp plug and cable for easy plug in connectio to a standard 10 amp outlet.

## Emilia 90cm Cookers

### A 90cm cooker with the option of dual fuel or all gas.

The Emilia Romagna Series 90cm cooker has the capacity to create substantial family meals. The five burner cooktop has a range of burner capacities from high performance stir fry applications through to low temperature simmering.

THERE ARE TWO OVEN OPTIONS:

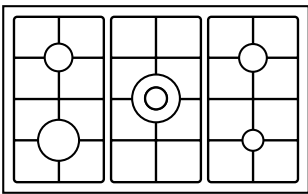

- DI965MVI4** A fan assisted gas oven with 5 burner gas cooktop
- DI965EI4** A multifunction electric oven with 5 burner gas cooktop

### Features

- 5 burner gas hob with centre triple ring wok burner
- Flame failure safety devices are fitted to all burners. In the event of the flame going out the gas stops flowing

Made in Italy

# Emilia 70cm Bi-Energy Cooker

## Energy Selective oven for ultimate cooking choice.

Choose the best energy source to match your cooking. Gas and Electricity for recipe selectivity. Use the moist heat of gas for roasts and casseroles. Succulent, moist and minimal shrinkage. Use the dry heat of electricity to produce crisp pastries and crunchy oven fries.

This is the ideal sized cooker to replace your old model without having to change your kitchen. The width of the Emilia 70cm cooker fits into the same space as many older style cookers.

DI765GGESIB4 BI-ENERGY COOKER

### Gas and Electric in one oven

GAS

- Gas is a moist heat that seals in moisture, reduces shrinkage and enhances flavour.
- Cooking with gas is cheaper than cooking with electricity.
- Natural gas has less than half the greenhouse emissions of coal generated electricity.
- Gas is great in a blackout.

ELECTRIC

- Electricity is a dry heat which is perfect for cakes and pastries.
- If you are using LPG and run out of gas the electricity is a great back up.

### Features

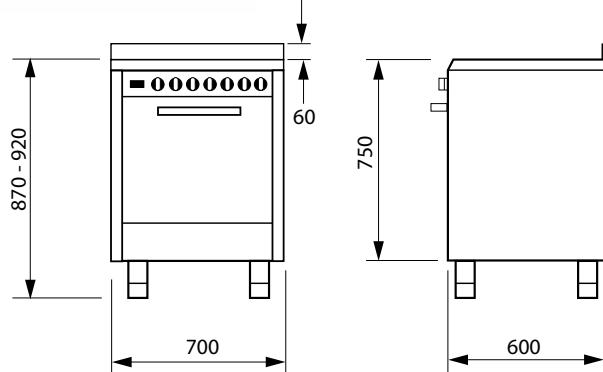

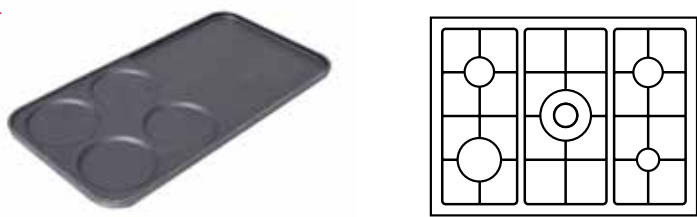

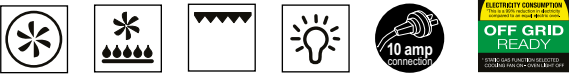

- 5 burner gas hob with centre triple ring wok burner
- Energy selective oven
- Flame failure safety devices are fitted to all burners. In the event of the flame going out the gas stops flowing
- Double glass door with large viewing window
- Electronic ignition for reliable easy lighting
- Cast iron trivets, strong and hard wearing
- Digital clock for accurate time control
- Adjustable stainless steel legs to match your bench height

# Emilia 53 Compact Cookers

Series 4 with flame failure safety protection on all burners.

The Italian solution to upgrading from a standard white cooker.

We designed this cooker in Italy specifically for the replacement market in Australia where the 53cm width allows an Emilia EM cooker to fit into the space of a standard white cooker. No need to change cupboards and benches. It is an easy way to upgrade your kitchen with a European appliance.

THERE ARE TWO OVEN OPTIONS:

- EM534MVI4
- A fan assisted gas oven with 4 burner gas cooktop
- EM534EI4
- A fan forced electric oven with 4 burner gas cooktop

## Features

- 53cm width fits straight into the space of a standard white cooker
- Handmade stylish square hob with single piece splash back is so much easier to keep clean.
- Flame failure safety devices are fitted to all burners. In the event of the flame going out the gas stops flowing
- Double glass door with large viewing window
- Simple 10amp plug in electric connection for all models
- Big oven capacity of 67 litres total with 60 litres of usable space
- Integral grill with closed door grilling, efficient and clean
- Heavy duty cast iron trivets, durable, stable and safe.
- Height adjustable to 920mm to perfectly match your bench height
- Automatic electronic ignition controlled through the knob.
- Titanium easy clean enamel with super low porosity
- Removable inner door glass for easy door cleaning
- 60 minute count down timer for monitoring cooking
- Has a single piece hob as found on 90cm units with integral easy clean splashback.

## Optional Accessories

- 140mm Stainless Steel Kick Plate – Model MAKP50
